A Letter to You

Hoffman's Farm Seeds

LANDISVILLE, PA.

March, 1936.

MR. SEED-BUYER:

When you sow seed -- any seed . . . it's a crop that you want! Not only want -- but must have! . . . what a small part of most any crop is the cost of the seed! . . . Then why not sow the very best seed your money can buy? It never costs but just a few cents extra to the acre! And that small extra investment in seed is, many a time, the very reason for an extra good crop over just an ordinary or even a poor crop.

Now in CLOVER SEED, Hoffman offers you splendid quality -- and that means Red Clover, Mammoth or Sapling, Alsike, Sweet Clover too. And it's just as true of the Hoffman ALFALFAS and Timothy seed. Sure -- you can buy lower-priced seed. But please don't settle this important seed question on price. It won't pay you in the end.

You want clean, heavy stands of Clover, Alfalfa, or other Grasses. Free from weeds. Hardy stands that will survive your winters. And you get just that kind of success with Hoffman's Seeds. It's that extra ton of hay to the acre that makes your profit! Sow Hoffman's Extra-Quality seed and get that extra hay!

In Oats -- sow a proven variety. "Shadeland Victory" and "Shadeland Climax" have been making wonderful crops. "Swedish Select" has done well too. An extra bushels per acre from these famous Hoffman oats -- soon repays their small extra cost. Those extra bushels are your profit!

Hoffman Quality Seed Corn -- for only 30c an acre over mill-corn price! Think of it! And here's where you gain many bushels, and much better-filled silos! Order early.

Soy Beans, Pasture Grasses, Seed Potatoes, Sudan Grass, all these and other Hoffman selections made for you are positively first-class seed. Tested, clean and sound. They will make you good crops. They won't disappoint you.

Please mail your order now. It will be filled with seeds that can't help but please you . . . And they will pay you well! Order today.

Sincerely,

A. H. HOFFMAN, INC.

Hoffman's SEED OATS

Good Seed Oats pays! Ask Roy Kaylor, Elizabethtown, Pa. He threshed 79 bushels per acre from his Hoffman "Shadeland Victory" Seed. His other field, sown to his old oats (same year) made 59 bushels. *A Clear Gain of 20 bushels to the acre!* Or ask H. R. Craig, Greenville, Ohio. He wrote: "Your Shadeland Climax excelled all other varieties in this section by 25 bushels per acre."

"Shadeland Victory" is a beautiful white heavy oats. Heavy yielder. Stiff straw. Early in maturing.

"Shadeland Climax" a favorite for twenty years. Also a tree or sprangle type. Early. Stands up well. Very good yielder.

"Swedish Select" — sound clean seed. Very popular. Moderate in price. Good stouter — strong straw. Yields very well.

Catalog gives full details on above, and also other varieties. Please note.

Don't wait to order Seed Oats. Some varieties are in short supply this year. Remember the Hoffman Freight-Paid offer. Bags are free. See enclosed Price List.

If you Want a Good Stand of Clover... sow Hoffman's Seed!

There are all kinds of clover seed . . . and with prices to match! You can pay most any price you want to, and you'll get just what you pay for! Only a very small percentage of all the seed made in this country, is graded up to the standard of Hoffman's Extra Quality seed. Great majority is of lesser value, hence sells at lower prices.

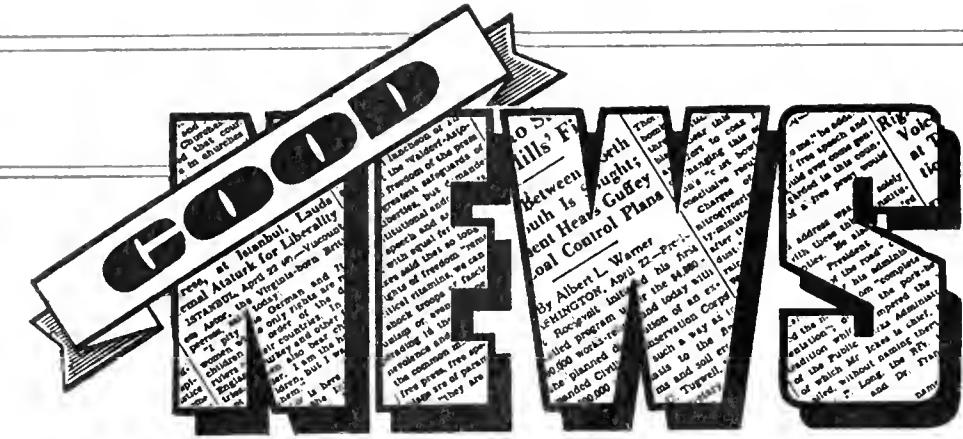

Yet Hoffman's is not high-priced seed. Rarely costs beyond an extra dollar per bushel — maybe 20c an acre extra — above just ordinary seed sold most anywhere. But what a difference in value! Clean, weed-free fields, thick heavy stands, hardy cold-winter strains. Isn't that what you want on your farm? Then sow Hoffman Extra Quality Red Clover Seed. It is priced right! And will start you off toward right crop results. Order today.

Alsike Clover

Here is also Extra-Quality seed for you. Clean, and free from foul weeds. New-crop, tested, hardy sound-growing seed. Fine to sow along with your red clover — usually three parts red to one part alsike.

Mammoth (Sapling) Clover

Only one grade 'Extra'. And it is clean, sound, tested, dependable seed. By error, omitted from catalog. But is here for your order in top-notch quality. Supply is not large. See Price List.

Hoffman's Seed Prices Today 30% Lower than a year ago!

What a difference! Please refer to enclosed Price List. See today's prices. Then compare them with these prices that were quoted just a year ago! At that time Red Clover was \$17.50 bu. . . . Alsike was \$19.50. . . . Northwest Alfalfa was \$18.50. Sweet Clover was \$7.40. . . . Economical Mixture was \$15.60. . . . Timothy was \$11.25!

Above seeds average about 30% lower today. Certainly that's good news. And we're glad too!

But one thing more . . . don't be surprised at higher prices soon! Markets are all firm. If the expected demand comes (and it may come with prices so much lower) wholesale markets will go higher. If they do, we'll have to. That's just why we've been urging all our friends to ORDER NOW!

Alfalfa Seed

Here's the crop for which good seed must be sown! And you must know all about your Alfalfa Seed. . . . Where it was grown. Whether it's cleaned clean. If it will grow. Will it stand your winters? Is it a good producing strain?

You get the right answers to all these points, when you sow Hoffman's Extra-Quality Alfalfa Seed. . . . The famous Hoffman "Northwest" brand — for twenty years — ranks Number 1 with thousands of eastern Alfalfa growers. They know what it means to sow good seed. They've made good money sowing Hoffman's Northwest Seed. . . . Many other folks buy Hoffman Kansas Seed. And there is more Hoffman "Grimm" Alfalfa being sown year after year. . . .

Here is truly top-notch quality seed. Clean, tested and sound. And from the right sources. Suited to your section. Prices are very low this year. Order today.

Sweet Clover

Tested, sound-growing, weed-free, and very fair-priced seed is offered you in this department. Three strains. Most folks use the White Blossom. Some the Yellow Blossom. A few, the dwarf Grundy County strain. . . . Please refer to catalog for details.

Timothy Seed

Today's price is just about one-fourth of last year's. And the quality of Hoffman's "Farmers Choice" Timothy is fine. Sure to grow. Free from foul weeds. Hardy and prolific. See Price List.

★ MAR 23 1935 ★

U. S. Department of Agriculture,

Hoffman's Clover Seed

The U. S. crop of Red Clover, Mammoth Clover and Alsike Clover is way under normal this year. If the expected demand sets in for these seeds, higher prices are almost sure to come.

Sow Hoffman's clean, hardy, heavy-cropping clovers and be safe! Of course, there's cheaper seed than Hoffman's, but **there is no better seed**, and Hoffman's isn't high-priced seed! You get full value for your money. You get seed that will grow. Seed that's free from foul weeds. . . Seed that does well in your section. . Seed that will make a paying crop.

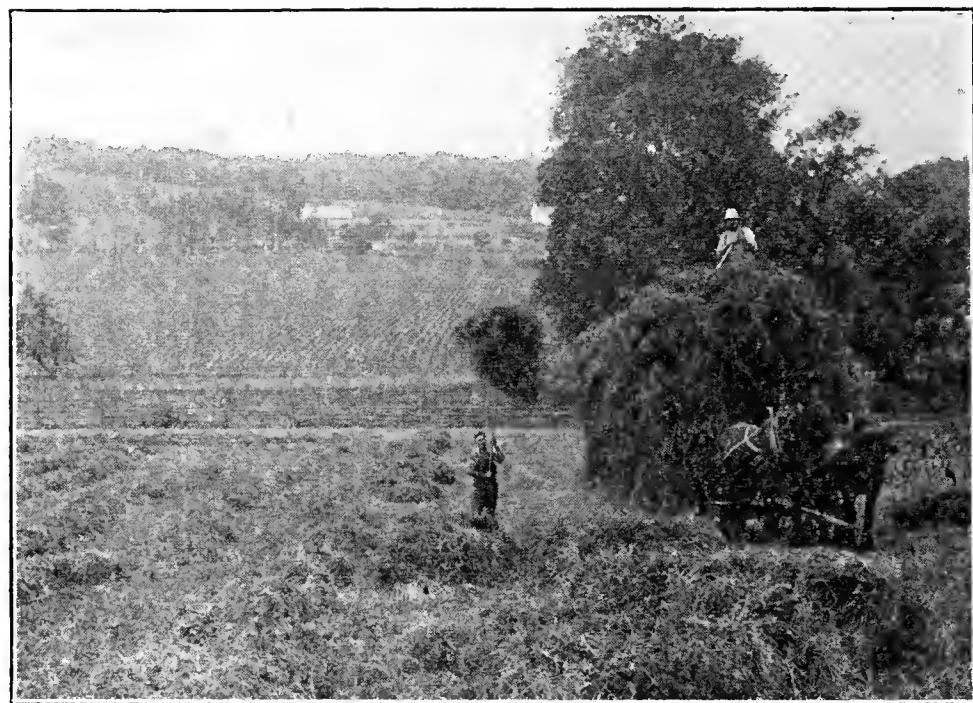

Don't gamble with lower-priced seed. The difference can't be more than a few cents to the acre. Sowing Hoffman's reliable "Extra" seed pays big dividends in bigger crops. Order Hoffman's Clover Seed today.

Hoffman's Sweet Clover

Sweet Clover again very popular. Succeeds most anywhere. Price very low. Fine soil improver. Inoculate the seed. Buy Hoffman's clean, weed-free, tested seed. It is of splendid quality.

Did You Get Your New HOFFMAN CATALOG?

If not—please write today
so another can be mailed

Hoffman's Timothy Seed

Price is very low and quality fine. Tests for purity show right around the 99 $\frac{3}{4}$ % mark. . . Highest germination. . . Good, clean, hardy seed, that's going to give you a good crop!

Hoffman's Alfalfa Seed

Here's one crop that you must be sure about when you start out. You must sow good seed to get good Alfalfa crops. Don't be misled by bargain prices. There are always reasons back of bargains in seeds. But the sellers of such bargain seed only tell you the price per bushel.

Hoffman's Alfalfas are the hardest strains known. . . Very clean. . . Free of foul weeds. . . Tested and show highest possible germination. You get the very cream of the crop in Hoffman's Northwest Alfalfa—also in Hoffman's Grimm strains—and in the Kansas-grown seed. Prices are very fair. . . Much lower this year than in recent years. An ideal time to start new fields to alfalfa. Don't forget to inoculate the seed. Inoculation pays big dividends. Order your Alfalfa Seed new. Wholesale markets are already stronger as the spring demand sets in. Higher prices would not be surprising.

Hoffman's Economical Mixture

Here's a mighty good seed combination made up of about half Red Clover, quarter Alsike, quarter Timothy. Many hundreds of bushels sown each year. It makes fine stands of hay. . . Very dependable. . . Clean and sound tested seed, priced at a saving.

Hoffman's Alsike and Timothy

20% or more of Alsike, and high-grade seed. Top-quality Timothy seed, too. Both of sound growth. Very popular in the north. Saves you some money. See Price List other side.

Hoffman's Seed Oats

Early orders are heavy. Shadeland Victory again leading in sales. Shadeland Climax also popular. Swedish Select another fast seller. These are all fine types. . . Good yielders. . . Reliable varieties. Catalog gives more details. Please read.

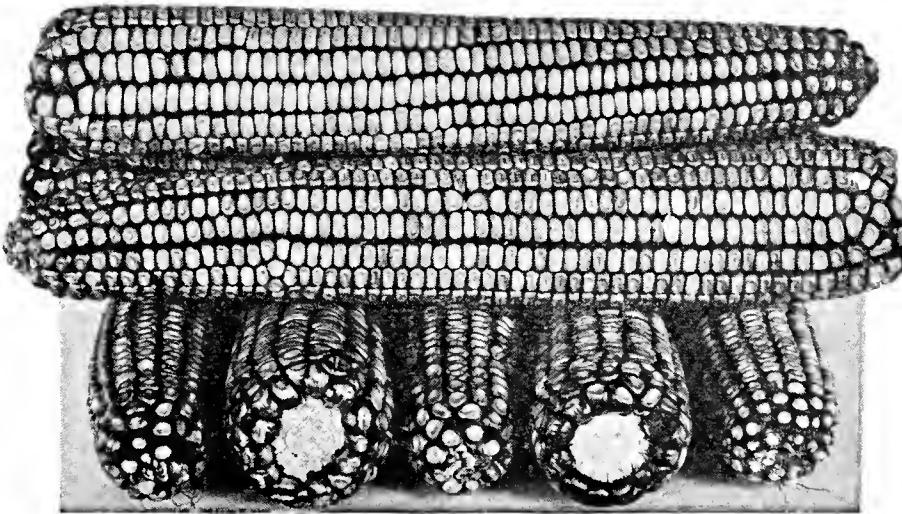

In Hoffman's Seed Oats you get the best selections. All are thoroughly cleaned—free of weeds. All tested for sound growth. Good, heavy, sound seed all the way through. Prices are right. Note the quantity prices on the list on next page. Order early. Some varieties are not in big supply.

Hoffman's Soy Beans

More popular than ever. Fine for hay—great soil improver if seed is properly inoculated. Also makes good crops of beans. "Wilson Black" is fastest selling variety. Please refer to catalog for details on it and other kinds. All Hoffman's Soy Bean seed is well cleaned—sound in germination. . . Priced right at Bag-Free, Freight-Paid quotations. Time to order is early.

Hoffman's Sudan Grass

Great summer crop. Makes good pasture for dairy cattle. Also used widely for emergency hay crop. Not hard on land. Grows fast. . . Makes two crops. Costs very little to seed it. Hoffman offers top-quality seed at indeed very fair prices.

Hoffman's Seed Corn

Don't wait to order your Seed Corn this year! Buy now! The demand from some sections may be extremely heavy. Later prices may have to advance. It depends on the demand. Hoffman's Seed Corn is of selected crops—properly cured—well taken care of. . . Tested for sound germination. . . Closely graded and cleaned right. Cost you but a very few cents per acre. No better insurance for a successful stand of corn than planting Hoffman's Quality Seed Corn.

"Lancaster Sure Crop" is again the leading variety. "White Cap Yellow Dent", "Long's Champion" and "Early Dent" are fast selling kinds. "Red Cob White Ensilage" is splendid for the silo. . . It makes a heavy tonnage. Please refer to catalog for details on all the other varieties. See Price List other side this card.

ORDER YOUR SEEDS NOW

...and order Hoffman's Seeds...They'll Pay You Best!

Economical Mixture

Here is a good buy — and offered at a money-saving price. Again selling well. Fine reports have come in from its users. . . . Composed of about half Red Clover, quarter Alsike Clover, quarter Timothy. May also carry a little Alfalfa. Made right here, and we know it to be good value. Suggest early orders. If Clover prices advance this will have to follow.

Alsike and Timothy

Contains 20% or more Alsike Clover. Good quality seed — both the timothy and the alsike. Always in heavy demand. Means a saving, compared to the separate costs of each kind of seed that composes the mixture. This is clean, sound, tested seed — and priced right!

Pasture Grasses

Kentucky Blue Grass, and Red Top (Herds Grass) — two of the nation's main pasture grasses, are here in extra fine quality this year, and at much lower prices. Meadow Fescue also low-priced this year. Good quality Orchard Grass seed, and the other pasture seeds are waiting your orders.

Don't overlook the special Permanent Hay and Pasture Mixture, offered on page 59 of our new catalog. . . . This is the year to reseed old and start new pastures. . . . Seed quality is very good, and prices much less than oftentimes.

Sudan Grass Seed

Time right now to plan for any shortage of hay or pasture this summer. Keep Sudan in mind. It has been doing a very good job for great numbers of eastern farmers. Keeps on making hay and pasture even during drought summers. Very inexpensive to sow. Grows most anywhere. Full details in catalog — pages 62 and 63. Please read.

Seed Corn

When you can get good sure-growing Seed Corn at Hoffman's prices of today — just stop to figure how little it costs you!

Just stop and figure how little Hoffman's sure-growing Seed Corn costs you! Deduct from our quoted price, the feed-value of your own bushel or two of corn you would have planted. Why it only figures around 25 to 30c an acre! No other farm crop costs so little for its seed!

Hoffman's famous "Lancaster County Sure Crop" — fine for silo and for husking — sells fast these days. "White Cap Yellow Dent"

— "Long's Champion" — and "Red Cob White Ensilage" also in heavy demand. The popular "West Branch Sweepstakes" silage corn — and eight other varieties are offered. All in good quality. Very fair prices. See Catalog for details.

Hoffman's Soy Beans

Early sales are good — looks like another Soy Bean year. Quality of seed is fine. Prices are low.

Soy beans are used on many farms for an emergency hay-crop. They succeed most anywhere. Improve the soil when seed is properly inoculated. Often used to smother out bad weeds, and quite successfully. They grow fast. Dare not be planted until after corn-planting time, when ground is good and warm.

Leading variety is the Wilson Black. Fine stemmed, good height, leafy, and a heavy producer — both of forage and beans. Catalog gives further details on this and many other varieties. Consult latest Price List.

Hoffman's Seed Potatoes

You know what it means to plant good Seed Potatoes. Here's one place that seed quality really counts! Many dealers sell great quantities of so-called Seed Potatoes. Price is their main talking point. You can't buy Hoffman Seed Potatoes at the lowest price. But this is true too — you can't buy better Seed Potatoes than right here! Remember — our Freight-Paid offer, it's mighty important.

There are two main varieties here offered which were grown in the State of Maine . . . Irish Cobblers (early) and Green Mountain (late). Both fine yielders. And first-rate quality seed. Another splendid variety is the Michigan-grown Russet. Fine for late main crop. All are Certified, of course. Please refer to Price List.

Good Pasture - yes....Good hay-crop - yes...But How To Get Them!

That's often the question — how to get a good stand of grass. Many things are important. Right soil — proper fertilizer, enough lime, good cultivation, inoculation sometimes necessary —but don't forget one mighty important factor—GOOD SEED!

It's just too bad that so many thousands of farmers throw their money away on poor seed. And still many others skimp too much, trying to save seed. . . . Then they wonder why they can't get results!

About soils, fertilizer, lime and cultivation — consult your local County Agent. He has splendid information for you. He will also recommend a seed formula that may best suit your location. But watch your seed! It's very important. Nothing can be saved by buying 'bargain' seed. It's just the place for an unscrupulous dealer to work off his poor seed. Don't you buy

it! Order clean seed. Seed that's tested. Seed that grows. Hardy strains that will thrive for you. . . . In other words — order Hoffman's Quality Seeds — the kind that has been successful for over 37 years. True — you may invest a few cents more to the acre at the start. But that amounts to nothing in the end . . . except that it's going to *give you the stand* you are after. And that's *everything* to you!

Time now to order your spring seeds. Qualities that await you here are first-class. You will be pleased with your purchase of Hoffman Extra-Quality Seeds.
